DETAILED ACTION

Response to Amendment

1. In response to the amendment filed 6/10/2005, all necessary changes to the claims and specification have been entered.

Response to Arguments

2. Applicant's timely filed terminal disclaimer has overcome the previous double patenting rejection. However, the following defects rendered the application not allowable.

Claim Objections

3. Claim 19 is objected to because of the following informalities: It appears that in line 1 of the claim, "The method of Claim 19" should be replaced with -- The method of Claim 18 --. Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 32-42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
6. Claim 32 recites the limitation "the plurality of scanplanes" in lines 9-10. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

7. Claims 1-18 and 20-31 are allowed.

Art Unit: 3737

8. Claims 32-42 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
9. Claim 19 would be allowable if rewritten or amended to overcome the objection set forth above.
10. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
